More Information:

Reading music is a real plus, especially knowing how to read rhythms. And the only
way to get better at playing bells and reading bell music is to....
play bells and read bell music!

Here at our Lady of the Lake Church, we are lucky to have a 3+ octave set of bells
(requires 11 players), new bell tables, pads, mallets, bell stands and music folders,
along with an inspiring repertoire. The sound of bells playing together both
inspires and enhances the Spirit resonating within the sanctuary.
